Dear Lee

New Level 3 Diploma in Sports Massage Therapy (QCF)

As the specialist members Professional Association for Sports Massage and having been closely associated with the development of the new qualification we are very pleased to confirm that it is in our opinion fit for purpose.

The construction of the qualification offers students the opportunity for them to gain the theoretical and practical grounding that will allow them, post graduation, to work in the soft tissue/sports massage industry on an employed or self employed basis.

It is also very pleasing to know that a single suite of progressive Level 3, 4 and 5 sports massage qualifications, of which this is the first, will remove the potential for confusion that has existed with the current similarly named but different QCF sports massage qualifications.

Kind regards

Rodger Davis
Executive Director and Vice-Chair
